UNIPUNCH PRODUCTS, INC.

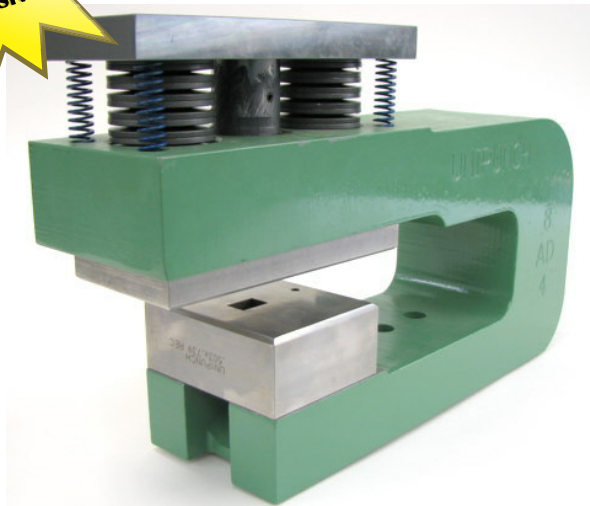

Thick Material Tooling

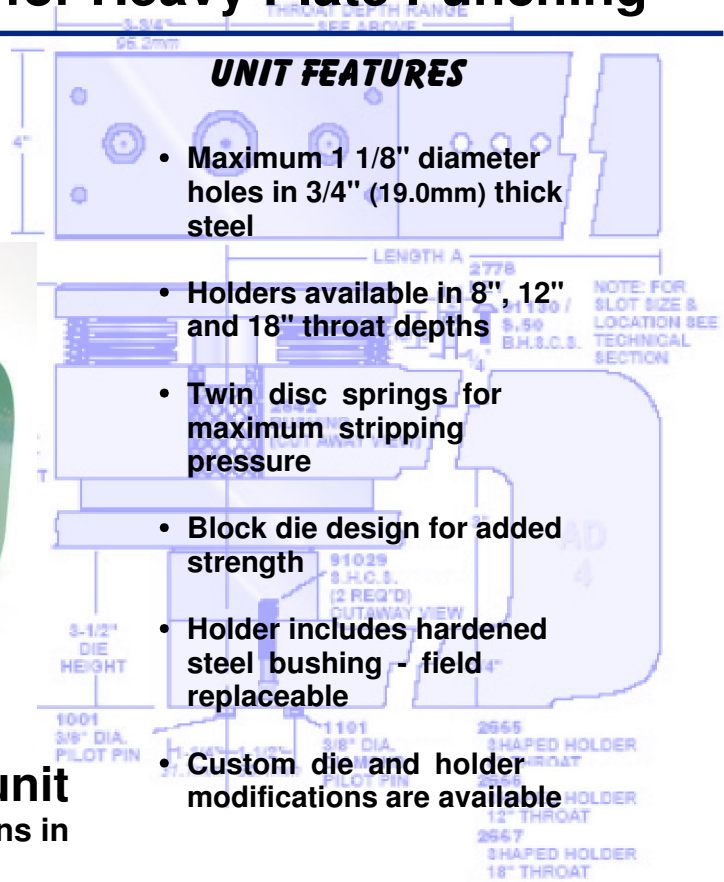

## UniPunch Solutions for Heavy Plate Punching

### AD-4

The AD-4 hole punching unit is the one tool designed for applications in material up to 3/4" thick.

Visit our online catalog for complete AD-4 unit specifications.

[www.unipunch.com/catalog/catalog.asp?Unit=20&Page=41](http://www.unipunch.com/catalog/catalog.asp?Unit=20&Page=41)

For heavy plate steel punching up to 1/2" thick (12.7mm), select the UniPunch AH-Series. See catalog pages 36-40 for details.

For a tooling quotation, just provide drawings or CAD files.

Our engineering department will review your requirements and recommend tooling for your application.
